

## **JK Lawyers profile**

JK Lawyers was founded in 1999 and is based in Melbourne, Victoria, Australia.

We have represented clients in a whole range of matters from many parts of the world using our motto “your success is our success”. Between the 9 legal practitioners, the Firm focuses on providing excellent legal services tailored to the requirements of small and medium enterprises, private individuals, even government offices and non-profit organisations.

These are a few of the legal services we daily work on:

- For commercial matters, legal structuring of enterprises, to contracts and agreements for shareholders and unitholders, sale and purchase of businesses, leases, employment, insurance claims, franchises, conveyancing of businesses and bankruptcy.
- For litigation and dispute resolution matters, we have successfully represented our clients to resolve issues involving business and/or partners’ disputes, property, construction, owners’ corporation, family law (finance, property and parenting) and personal injury.
- For criminal matters our experience extend to family violence, police charges over drugs, theft, sexual assault, and helped many clients respond to and overcome many types of criminal charges.
- For Australian migration, we have obtained visas for applicants seeking Australian citizenship, permanent residence through business, parents, partner, skilled, refugee, minister of religions categories, temporary residence through student, guardian, tourist and retirement categories. We have had many success including those matters adjudicated at the Tribunal.
- We look after family clients in estate planning through wills, powers of attorney, medical treatment decision maker, probate and administration.

Our staff are down-to-earth and work hard to achieve the successes for clients whether the matters are simple or complicated. We are constantly looking to add value such as taking instructions and providing advice through the native languages of our clients, apart from English, including Cantonese, Hokkien, Malay, Mandarin and Vietnamese.

Our memberships include the Law Institute of Victoria, Migration Institute of Australia, Australian Institute of Conveyancers and Migration Agents Registration Authority.

Yearly we intentionally carve out time out to provide legal services and advice pro bono, for example writing wills for the Salvation Army community, advising non-profit organisations about compliance, giving general advice to individuals for all sorts of issues they face.
